

## Thom McAn Store Opens in Del Amo Shopping Center

Los Angeles County will have a new shoe style center for the entire family today when Thom McAn's new store in Del Amo Center, Torrance, begins a three-day opening celebration.

Fred Kaufman, currently manager of the Thom McAn store in Fullerton, will manage the new store according to William Harbour, district director for Thom McAn in this area. Kaufman with his wife and two daughters at 1152 Mayfair Ave., Anaheim. The new store will be operated by a local company, Del Amo Thom McAn, Inc.

**CELEBRATION**  
All customers during the three-day opening celebration will receive free gifts with shoe purchases — Esquire shoe shine kits or pen and pencil sets for men, wallets, gold key chains or hosiery for women, gun and holsters or dolls or pen and pencil sets for children. Each child visiting the store will receive a free balloon or lollipop.

Dress and casual shoes for the entire family—men, women, children and teenagers—plus color-coordinated handbags, hosiery and other accessories will be on display.

An outstanding feature will be the new collection of Mr. Thom Designer Fashion shoes reflecting the latest style trends and silhouettes for women. Several hundred shoe styles for all ages are to be exhibited on open displays, and customers can make their own tentative selections before being seated for personal fitting.

**ADVANCED**  
The new store is one of an advanced type being built by Thom McAn all over the country. Francis C. Rooney, Thom McAn president, commented:

"We have pioneered the development of family shoe style centers where personal service, ample parking and spacious store interiors actually make shopping very pleasant."

Three separate departments divide the interior of the store into convenient shopping

areas. The women's and children's departments are in pink, yellow, blue and chartreuse. The men's department has bamboo yellow walls and copper red chairs.

Particular attention has been given to the children's department, with caricatures from children's fiction on the walls, and special areas for supervising Thom McAn's five-way fit on all children's shoes.

Today's opening brings

to 67 the number of Thom McAn stores serving California. The first Thom McAn store was opened in New York City in 1922. Since then the number has grown to nearly 900 in 500 cities from coast to coast to make Thom McAn the largest integrated manufacturing-retailing organization in the shoe industry. New stores are now being opened at the rate of one per week.

**600,000 TONS OF HAY**  
In Los Angeles County cows consume 600,000 tons of hay each year. It would require a hay field measuring 20 miles by 10 miles to provide this amount of hay.

**THE BOY**  
Of all animals the boy is the most unmanageable, inasmuch as he has the fountain of reason in him not yet regulated. He is the most insidious, sharp-witted, and insubordinate of animals. Wherefore he must be bound with many brides.  
—Plato (c. 328-c. 348 B.C.)  
Greek philosopher

**GOD'S WORK**  
With how much greater probability shall we make a conjecture as to God's work and designs even for the other planets, from that variety which we discern on Earth. (1571-1630)—Johannes Kepler  
German astronomer

## TV STUDIO

2223 Torrance Boulevard, Torrance • FA 8-6856

4 BLOCKS EAST OF CRENSHAW

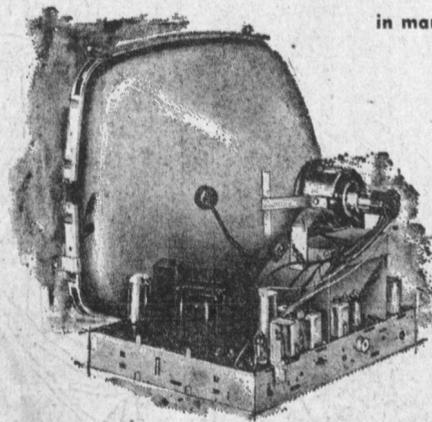

Rated No. 1

Now you can enjoy television from the side of your pool to your living room. Zenith's 18,000 volt chassis gives beautiful reception in any room you wheel the set. You can enjoy the ease of controlling your television set from across the room while you relax in your comfortable chair. There are no cumbersome wire and batteries. The 104 contact points in Zenith's new Gold Video Guard Turret Tuner are 16K gold filled to make a tuner sensitive enough to bring the finest picture even in areas where reception is difficult. Zenith uses copper wire, which is hand soldered, in its chassis. Zenith would not allow its circuitry to be printed on plastic board (similar to the way this newspaper is printed) just to cut the cost in manufacturing.

The new model G2213 with 172 square inch Sunshine picture tube and exclusive Space Command remote control tuning.

The Zenith Service Saver Chassis' proven standard of performance has led Zenith to be rated No. 1 again and again.
